# The incustry's

Xero Linear Lighting Systems introduces the Xero Technology Advanced (XTA) series.

XTA brings together the best available technology for any linear lighting system.

The technologically advanced XTA series also includes 'AXIS' a unique gear tray system that is completely upgradable and removable allowing, LED components to be easily accessed for end of life replacement, upgrade or maintenance. Axis gear trays have a camm latch that is the fastest in the industry to remove and requires no tools.

The XTA series uses Xero's exclusive boards and drivers - 'Xeramix 1' with an industry leading 10 year warranty that has unmatched colour quality throughout life includes combined HE / HO board with 114k hour life to L90 B10.

UL / CE / AUS/NZS standards approved Universal 120-277v input, site selectable drive current for variable output 'on-the-fly'. Partner this with the high end details such as laser etched CNC machined end plates, micro prism diffuser with UGR19 and high LOR, white optic louvres and dot free diffusion options and excellent thermal tolerance.

## XERO TECHNOLOGY ADVANCED

st profiles

XERO is truly linear lighting redesigned

# higher performance longer life

The XTA | 1.5 Xero Linear Lighting System brings high-quality dot free illumination to commercial and institutional interior environments. Featuring the latest generation of LED technology, The XTA | 1.5 is the perfect choice for offices, retail and public spaces with clean, uninterrupted lines of light that comes from Xero's exclusive patent 'SpeedConnect' System

Xeramix LED light engines are LED boards that utilise ceramic based LED chips that provide outstanding light quality over the LIFE of the boards. The LED light engines have 114,000 hour life to L90 B10 @ 50°C. This performance is unmatched.

Xero Linear Lighting Systems extends an (industry leading) full 10 year warranty using Xeramix 1 light engines to the original purchaser for the XTA series of profiles.

## Highly Configurable

All XTA products can be made with lit, or unlit, corners which provide the designer with a myriad of design options.

## bend options

LED technology has rapidly advanced over the last decade with criteria of quality & quantity of light, efficiency, life and cost. The XERAMIX<sup>™</sup> philosophy is targeting performance well within nominal specification to create luminaires in a class of their own.

#### Multi configuration arrays

Xeramix light engines are available in 25mm, 100mm, 280mm and 560mm lengths. These lengths derive from Xero's linear fixture algorithm, resulting in the ability to manufacture any luminaire length within 1mm increments.

#### Drive current dipswitch

A simple switch configures the total luminaire wattage, lumen output and efficiency without the need to change components. Xeramix light engines have been engineered to support the broad range of drive currents.

#### Constant pitch, uniform light

LED pitch is maintained across multiple gear trays, creating a uniform 'dot free' appearance on the diffuser for a highly desirable, continuous 'ribbon of light'.

uniform pitch maintained

## technical data

#### DATA TABLE

Output	4ft Length Luminous Flux 1120mm (Delivered Lumens)	LO HO 1900 3500								
	CRI	80+								
	Lumen Maintenance	114,000 hours [L90 B10 @ 35°C] 1M hours [L70 B10 @ 35°C]								
Warranty		Xeramix 1 = 114,000 hours or Xeramix R = 1 million hours								
Electrical	Power Consumption	Between 20 and 45w/m								
	Voltage input range	120 – 277V								
	Control methods	Dimming options for white light: 0-10V, DALI, DMX / Optional RGB / Sunset Dimming control: DMX or DALI XI								
	Total harmonic distortion THD	9.8% max								
	Approvals	UL / CE / CCC / AS:NZS / EMC								
Physical	Dimensions – (Niche)	113mm wide x 120mm high								
	Dimensions – (Luminaire)	40mm wide x 68mm high								
	Weight per metre (Niche)	4.45kg (9.8lbs) average weight								
	Weight per metre (Luminaire)	3.2kg (7lbs) average weight								
	Housing	Aluminium Extrusion with anodised or powdercoated finish								
	Downward diffuser	Frosted acrylic lens / Polycarbonate lens / microprism lens								
	Connections	Speed connect joining system with polarised electrical connection between sections								
	Compatible ceiling type	Suitable for gyprock (drywall) ceilings								
	Mounting	Site adjustable plaster trim kit (only)								
	Joiner options	Lit corner 90°/ Cross 90°/ Tee 90°/ straight 180° join								
	Operating temperatures	-25°C to 50°C (-13F to 140°F)								
	Environment	Dry – Indoor applications only								
	Minimum length adjustment	25mm								
	LED board types	XERAMIX LED boards in 25mm / 100mm / 280mm / 560mm lengths ZHAGA compatible

The Xero Configurator allows you to design and build your customised lighting system. To ensure that your profile specifically caters to your project application follow the simple 8 step build process to obtain your unique DNA code. Select your profile, choose your colour, length, gear tray, output, colour temperature, mounting requirement and choose from the selection of extras

The X-Configurator can be accessed at http://xconfigurator.xerolighting.com/

to access the X-configurator please visit http://xconfigurator.xerolighting.com/

#### General Specifications: LED luminaries shall employ ceramic based LED's with ZHAGA compliant boards LED luminaries shall have removable gear trays LED luminaries shall have upgradeable boards and drivers LED luminaries shall have light leak free joining systems LED Luminaires shall have 114,000 hour life to L90 B10 @ 50°C LED Luminaires shall have colour spatial uniformity of 3 step macadam ellipse at end of life LED luminaries shall have site adjustable drive current selection capability without the need for additional parts LED Luminaires shall have thermal ambient temperature rating of 50°C
